

The ASRM Young Microsurgeon's Group (YMG) is a resource for young reconstructive microsurgeons which provides opportunities for networking, sharing of ideas, and leadership development. Acting as a liaison between reconstructive microsurgeons in the early stages of their careers and established ASRM member surgeons, the YMG facilitates opportunities for young surgeons to become involved in the ASRM.

All reconstructive microsurgeons who are Candidate or Active members, who have been in practice for fewer than eight years after formal training, are eligible to participate in the YMG.

If you are interested in becoming a part of the YMG, please fill out the information below for our records and return to the ASRM central office via email (contact@microsurg.org) or fax (312-782-0553).

Full Name: _____

Preferred Email: _____

Preferred Phone Number: _____
